Class Description

Remote Security: Cyber Security is the first part of a series on cyber security for the water and wastewater sector. Remote Security was chosen as Part 1 to assist utilities and systems with difficulties they may be facing currently.

The class will overview the basics of cyber security and how remote work and crises may impact it. We will further look at schemes and tactics cyber criminals are employing now, with possible remedies and plans to thwart their attempts.

Lastly, we will look at the current situation with COVID-19, additional considerations, cyber security do's and don'ts, and lastly tips and tricks.
