

Agenda

- Overview basic water chemistry for water professionals
- Explore the water molecule and the water cycle
- Discuss stable vs. unstable/aggressive water
- Introduce water nuisances and health-based contaminants
- Conclude with what you need to know when sampling from your lab
- Q&A

Training Session Dates:

We will email the connection and Zoom information 48 hours prior to each class. Classes are limited to 20 attendees each.

**Tuesday, January 12,
2021**

7:30-9:30AM

**Thursday, January 14,
2021**

1:30-3:30PM

Maine Water Utilities Association
15 University Dr
Augusta ME 04330

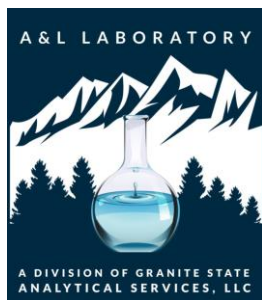

Basic Water Chemistry and the Lab

From the water molecule to what you need to know when sampling...

Live "Virtual" Training Sessions

**2.0 Maine BLWSO TCHs
2.0 Maine DEP TCHs**

Your Instructor:

Rebecca Lebranche – A & L Laboratory

Rebecca has been with A & L Laboratory since 2004. She has held positions as their microbiologist, quality assurance officer and now as their laboratory director. Rebecca holds bachelor's degrees in both environmental science and business management as well as a Water Operator License for Very Small Water Systems, making the laboratory director position a perfect fit for her. With over 15 years of experience in the drinking water field she has analyzed thousands of water samples and advised countless homeowners and public water systems on the quality of their water. She's excited to help you too!

Registration Fees:

Member: \$55.00

Non-Member: \$70.00

Class Description

Water chemistry can be challenging, but Rebecca will present the basics in an easy to follow and engaging presentation.

Overviewing the water molecule, the water cycle, stable vs. unstable water, and contaminants, attendees can expect to become very familiar with this topic. In addition to a Q&A, Rebecca will overview what your lab wants to you know to make you a better sampler and how to avoid making mistakes.

This is definitely a class you don't want to miss! Don't forget to bring your questions as Rebecca is excited to help you solve any difficulties you might be facing!
