Your Instructor:

Austin Drake, Smith & Loveless Inc

Austin Drake is a Pump Systems Instructor for Smith & Loveless. In this role Austin is responsible for providing training with respect to application, operation, and maintenance of wastewater lift stations. This includes best practices in troubleshooting pumping installations where operation or performance requirements are not being met. His training programs include training at Smith & Loveless as well as Pump Schools conducted at customer facilities and association events. Before joining Smith & Loveless, Austin graduated from the University of Kansas with a Bachelor of Science Degree in Mechanical Engineering. He also has several years of experience tutoring high school and college students in mathematics and engineering.
